TO ALL CUSTOMERS

This Hydraulic Pump is supplied to you with the following Installation Terms and Conditions:

1. All Hydraulic Pumps **must** be fitted by a **qualified tractor mechanic**.
2. New Hydraulic Oil **must** be fitted with the new Pump.
3. New Hydraulic Filter/Suction Filter **must** be fitted.
4. Transmission casing/sump **must** be thoroughly clean so that the return flow from the new pump does not disturb any debris, thereby sucking contamination back into the Pump and therefore causing damage.
5. Prior to fitting the Pump, the main relief valve should be slackened off the normal operation pressure.
6. After fitting a new pump to your hydraulic system, the pressure must be tested and included in the report, together with the Mechanic's signature.
7. We will not accept any warranty whatsoever after the pump has been fitted to the tractor and that all the tests have been carried out and that you are satisfied that the pump is working normally.
8. If you are not satisfied with our above conditions, please return the Pump to us and we will refund your money, the Pump must not have been fitted to the Machine/Tractor in this case.
